SCHEDULE A
RULES FOR IDENTIFYING DEATH MATCHES

In comparing Company's records of its insureds against the DMF and any updates thereto, the governing principle to be followed shall be establishing whether or not a unique biological individual identified within the Company's data is the same as a unique biological individual identified on the DMF in a case where a benefit is due and payable. In comparing the Company's records of its insureds against the DMF, the Company shall utilize the rules set forth below as the minimum standard for determining what constitutes a match.

Category 1: Exact Social Security Number Match occurs when the Social Security Number contained in the data found in the Company Records matches exactly to a Social Security Number contained in the DMF.

Category 2: Non-Social Security Number Match occurs in any of the following circumstances:

1. The Social Security Number contained in the data found in the Company's records matches in accordance with the Fuzzy Match Criteria listed below to the Social Security Number contained in the DMF, the First and Last Names match either exactly or in accordance with the Fuzzy Match Criteria listed below and the Date of Birth matches exactly.
2. The Company's records do not include a Social Security Number or where the Social Security Number is incomplete (less than 7 digits) or otherwise invalid (e.g., 111111111, 999999999, 123456789), and there is a First Name, Last Name, and Date of Birth combination in the data produced by the Company that is a match against the data contained in the DMF where the First and Last Names match either exactly or in accordance with the Fuzzy Match Criteria listed below and the Date of Birth matches exactly, subject to paragraph 3 immediately below.
3. If there is more than one potentially matched individual returned as a result of the process described in paragraphs 1 and 2 immediately above, or if both the Social Security Number and Date of Birth found in the Company's Records match in accordance with the Fuzzy Match Criteria listed below, then the Company shall run the Social Security Numbers obtained from the DMF for the potential matched individuals against Accurint for Insurance or an equivalent database. If a search of those databases shows that the Social Security Number is listed at the address in the Company's records for the insured, then a Category 2 Match will be considered to have been made only for individuals with a matching address.
4. If the Company's systems do not contain a complete "Date of Birth," then a "Date of

Birth" exact match will be found to exist where the data that is available on the Company's systems does not conflict with the data contained in the DMF. By way of example, if the Company's systems only contain a month and year of birth, an exact "Date of Birth" match will exist if the DMF record contains the same month and year of birth. Additionally, if the Company's systems only contain a year of birth or contain a complete date of birth that includes a month and day of 1/1 (e.g., January 1) followed by a year of birth, the Date of Birth will be deemed to match exactly where the year of birth in the data that is available on the Company's systems is within one (1) year of the year of birth listed in the DMF. By way of example, if the Company's systems contain 1/1/1934, an "exact" Date of Birth match will exist if the DMF record contains a year of birth of 1933, 1934 or 1935.

5. Additionally, if the Company's systems only contain a year of birth or contain a complete date of birth that includes a month and day of 1/1 (i.e., January 1) followed by a year of birth, the Date of Birth will be deemed to match exactly where the year of birth in the data that is available on the Company's systems is within one (1) year of the year of birth listed in the DMF. By way of example, if the Company's systems contain 1/1/1934, an "exact" Date of Birth Match will exist if the DMF record contains a birth of 1933, 1934, or 1935.

Fuzzy Match Criteria:

1. A First Name fuzzy match includes one or more of the following:
 - a. "First Name" "Nick Names:" "JIM" and "JAMES." The Company shall utilize a Nickname database, such as the pd Nickname database from Peacock Data, Inc. or an equivalent database, as well as publicly available lists of names and nicknames to identify matching First Names where a nickname is used on one or both sides of the match.
 - b. "Initial" instead of full first name: "J FOX" and "JAMES FOX."
 - c. "Metaphone" (a recognized and accepted phonetic name matching algorithm created by Lawrence Philips and originally published in 1990): "BUDDY" and "BUDDIE."
 - d. Data entry mistakes with a maximum difference of one character for a First Name at least five characters in length: "HARRIETTA" and "HARRIETA."

2. A "Last Name" fuzzy match includes one or more of the following:
- a. "Anglicized" forms of last names: "MACDONALD" and "MCDONALD."
 - b. Compound last name: "SMITH" and "SMITH-JONES."

 - d. "Metaphone" (a recognized and accepted phonetic name matching algorithm created by Lawrence Phillips and originally published in 1990): "GONZALEZ" and "GONZALES."
 - e. If First Name is provided together with Last Name in a "Full Name" format and "First Name" and "Last Name" cannot be reliably distinguished from one another: "ROBERT JOSEPH," Both "JOSEPH ROBERT" and "ROBERT."
 - f. Use of apostrophe or other punctuation characters in "Last Name:" "O'NEAL" and "ONEAL."
 - g. Data entry mistakes with a maximum difference of one (1) character for Last Name with at least eight (8) characters in length: "MACHIAVELLI" and "MACHIAVELI."
 - h. Last Name Cut-off: A match will be considered to have been made where due to the length of the Last Name, some of the last letters were not saved in the database. Examples include: "Brezzinnows" and "Brezzinowski" and "Tohightower" and "Tohightowers."

SCHEDULE C

Addendum Concerning Recently Discovered Continental American Insurance Company Annuities

In connection with the multistate targeted market conduct examination ("Examination") called by the California Department of Insurance, Florida Office of Insurance Regulation, New Hampshire Insurance Department, North Dakota Insurance Department, and Pennsylvania Insurance Department as Lead States ("Lead States") on November 30, 2012, American Family Life Assurance Company of Columbus ("Aflac") and Continental American Insurance Company ("CAIC") (collectively referred to as the "Companies") agreed to enter into a Regulatory Settlement Agreement ("RSA") concerning the Companies' settlement practices, procedures and policy administration relating to claims, and the use of the Social Security Death Master File. The RSA has intentionally been limited to life insurance and excludes annuities, the reason being that the Companies believed, in good faith, they had no active annuities. However, as the parties were completing negotiation of the terms of the RSA, the Companies discovered that a limited number of annuities remain on the books and records of CAIC. Because of the amount of time previously spent to reach mutually agreed to terms of the RSA, the Companies and the Lead States agree that it makes sense to separately address the CAIC annuity issue herein as the Companies have no plans to issue or administer other annuities.

This addendum shall provide additional terms and conditions between the Companies and the Lead States and the insurance departments executing a Participating State Adoption in the form set forth on Schedule B (the "Participating States") with respect to the remaining annuities on CAIC's books and records.

A. History of the CAIC Annuity Issue

As background, Aflac acquired CAIC in 2009. Both companies offer health and life insurance that is considered supplemental insurance. At the time of acquisition, CAIC did not have an active annuity business. However, the Companies have recently learned that a small number of active annuities remain on CAIC's books and records as a result of CAIC's purchase of a block of business in the 1980s from another company.

B. Status of the CAIC Annuities

As previously noted, the Companies have reported in good faith throughout the duration of the Examination that neither Aflac nor CAIC sold or administered annuities. However, the Companies' recent investigation regarding this issue shows as follows –

- CAIC reported 79 annuities on the 2016 NAIC Annual Statement. CAIC has since discovered that the number of annuities reported should have been 75 (72 annuitants as three people had two annuities each).

- The 72 annuitants were compared against the Social Security Administration's Death Master File ("DMF") between June 14 and June 17, 2017. Ten individuals were returned as potential matches. To validate whether any of the ten individuals were a "true match," additional research was performed by the Companies' Market Conduct team. Two individuals were determined to be deceased CAIC annuitants.
- The payment amounts for the two annuities are \$373.43 and \$4,255.71. These amounts represent the cash values of the annuities, and do not include interest.
- CAIC is in the process of locating the beneficiaries and/or estate representatives for the two deceased annuitants. For both annuitants, claim letters were mailed to the last known address of record on July 11, 2017 and August 11, 2017. CAIC will continue attempts to contact the beneficiaries and/or estate representatives via telephone or email, if available. To the extent CAIC is not able to contact a beneficiary, next of kin or estate representative, CAIC will remit the annuity amounts as unclaimed property in accordance with the RSA.

C. Adherence to the Terms of the RSA by CAIC with respect to the Annuities at Issue

The Companies shall apply the requirements of the previously agreed upon RSA to the two annuitants/annuities at issue, and any future annuities with benefits that may become payable upon the death of the annuitant. By signing in the designated area below, the Companies and the Lead States agree 1) to the terms and conditions stated above, and 2) Companies will apply the terms of the RSA to any of the remaining CAIC annuities with benefits that may become payable upon the death of the annuitant. Specifically, Companies will treat the 75 annuities in the same manner as a "Policy" (defined pursuant to Section 1(l) of the RSA), which shall be enforceable to the extent that the terms of the RSA may be made applicable to annuities benefits.

Participating States shall indicate their agreement with these terms by initialing a representative box on the Schedule B to the RSA.
