The Tax Cuts and Jobs Act of 2017 (the Act), which was enacted on December 22, 2017, reduces the US federal corporate tax rate from 35% to 21%. Many provisions in the Act, including the change in corporate tax rate, take effect on January 1, 2018. SSAP No. 101 requires that the effects of a change in tax rate be recorded in the period in which the law is enacted. We have not completed our accounting for the tax effects of the Act; however, we have made reasonable estimates of the effects on our deferred tax balances at December 31, 2017.

Under the Act, for taxable years beginning after December 31, 2017 the amount of life insurance tax reserves for any contract will generally be the greater of net surrender value or 92.81% of the reserve determined using the method prescribed by the National Association of Insurance Commissioners which covers such contract as of the date the reserve is determined. Any decrease in tax reserves as of January 1, 2018 is required to be recognized over an eight-year transition period beginning in 2018. At December 31, 2017 we have established both a DTA for the deductible temporary difference attributable to the decrease in tax reserves and a DTL for the related taxable income to be recognized over the eight-year transition period. Although the tax effects of these equal and offsetting differences do not impact surplus directly, they may impact the net admitted DTA resulting from the application of the admissibility tests under SSAP No. 101. Therefore, a subsequent change in our estimate of tax reserves under the Act may affect the measurement of our DTA and DTL balances or impact the amount of net admitted DTA.

As a result of the enactment of the Act, the DTAs and DTLs reported in the tables above have been re-measured as of December 31, 2017 in accordance with SSAP No. 101 to reflect the new corporate tax rate of 21%. The change in DTAs and DTLs attributable to the change in tax rate resulted in a net decrease to surplus of approximately \$3,253,000, prior to any related decrease to the statutory valuation allowance, which increased surplus by the same amount.

- D. The provision for federal and foreign income taxes incurred is different from that which would be obtained by applying the statutory Federal income tax rate to income before income taxes. The significant items causing this difference are as follows:

	12/31/2017	Effective Tax Rate
Provision computed at statutory rate	(25,311,435)	35.0%
IMR amortization	(19,363)	0.0%
Change in statutory valuation allowance	(8,110,755)	11.2%
Effect of change in enacted tax rate	3,253,189	- 4.5%
Total	(30,188,364)	41.7%
Federal and Foreign income tax incurred	(30,188,364)	41.7%
Change in net deferred income taxes	-	0.0%
Total statutory income taxes	(30,188,364)	41.7%
