#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policy

Premiums on fully insured accident and health plans are billed in advance of their respective coverage periods. Receivables and income for such premiums are recorded at the effective date of the coverage period. Premiums received in advance and any unearned portion of premiums are recorded on the balance sheets as premiums received in advance and unearned premiums and reported as income when earned.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Other costs, such as underwriting expenses, are also charged to operations as incurred.
