Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statement of the company are presented on the basis of accounting practice prescribed or permitted by the lowa Department of Insurance. The lowa Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of lowa for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the lowa Insurance Law. The National Association of Insurance Commissioners (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Iowa. The State of Iowa has not adopted any prescribed accounting practices that differ from those found in NAIC SAP.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the Iowa Department of Insurance is show below:

B. Use of Estimates in the Preparation of the Financial Statement

The Preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods. Actual results could result in material differences from those estimates.

C. Accounting Policy

Revenue Recognition: The Company provides health benefits to Medicare-eligible members under contract with the Centers for Medicare and Medicaid Services (CMS). Premium revenue is fixed in advance of the periods covered and is not generally subject to significant accounting estimates.

Recognition of Health Care Costs: The Company arranges for medical care for its members through a combination of capitation agreements and fee-for-service programs with medical services providers. Medical and hospital expenses are recorded in the period the member receives or is entitled to the services. These expenses include payments to primary care physicians, specialists, hospitals, pharmacies and other medical services providers.

In addition, the Company uses the following accounting policies:

(1) Basis for Short-Term Investments

Cash and cash equivalents consist primarily of highly liquid instruments which mature within three months from the date of purchase. Short-term investments consist primarily of investments purchased with an original maturity of 91 days to one year and certain money-market mutual funds.

(2) Basis for Bonds and Amortization Schedule

Bonds are stated at amortized cost using the interest method.

- (3) Basis for Common Stocks None.
- (4) Basis for Preferred Stocks None.
- (5) Basis for Mortgage Loans None.
- (6) Basis for Loan-Backed Securities and Adjustment Methodology None.
- (7) Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities None.

- (8) Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities None.
- (9) Accounting Policies for Derivatives None.
- (10) Anticipated Investment Income Used in Premium Deficiency Calculation

The Company assesses the profitability of its contracts for providing health care services to its members when current operating results or forecasts indicate probable future losses. The Company compares anticipated premiums and investment income to health care related costs, including estimated payments for providers, and costs of collecting premiums and processing claims. If the anticipated future costs exceed the premiums, a loss contract accrual is recognized.

(11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses

Claims unpaid and claims adjustment expenses represent management's best estimate of the ultimate net cost of all reported and unreported claims incurred through the balance sheet date. These estimates are based on estimates of unreported claims using historical and statistical information as well as other environmental and operating factors. The estimates are subject to the effects of trends in claims severity and frequency, changes in the regulatory environment and economic conditions. Although considerable variability is inherent in such estimates, management believes that the liabilities for unpaid claims and related claims adjustment expenses are adequate. The methods for making such estimates and the resulting reserves are continually reviewed and updated as necessary as experience develops or new information becomes known with any adjustments included in current operations.

(12) Changes in the Capitalization Policy and Predefined Thresholds from Prior Period

There was no change in capitalization policy from prior periods.

(13) Method Used to Estimate Pharmaceutical Rebate Receivables

The Company estimates amounts receivable for pharmacy rebates based on members' script counts reported by its contracted pharmacy benefits administrator. The Company follows SSAP 84 in determining the admissibility of pharmacy rebates receivable.

D. Going Concern

Note 24 – Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. Method Used to Estimate Accrued Retrospective Premium Adjustments

Based on member encounter data that the Company submits to CMS, the Company's Medicare premiums are subject to retroactive adjustment for both member risk scores and member pharmacy cost experience. This adjustment takes into account the acuity of each member's medical needs relative to what was anticipated when premiums were originally set for that member. In the event that a member requires less acute medical care than was anticipated by the original premium amount, CMS may recover premium from the Company. In the event that a

member requires more acute medical care than was anticipated by the original premium amount, CMS may pay the Company additional retroactive premium. A similar retroactive reconciliation is undertaken by CMS for the Company's Medicare members' pharmacy utilization. The Company estimates the amount of Medicare revenue that will ultimately be realized for the periods presented based on its knowledge of the members' heath care utilization patterns and CMS practices.

| | 2019 | 2018 |
|--|----------|-----------|
| Beginning liability for unpaid losses and loss adjustment expenses | 0 | 0 |
| Health Care Receivable | (77,653) | (100,056) |
| Beginning liability for unpaid losses and loss adjustment expense, net of Health Care Rec. | (77,653) | (100,056) |
| Incurred related to: | | |

| Prior Years | (40,860) | 18,149 |
| Total paid | (40,860) | 18,149 |
| Ending liability for unpaid losses and loss adjustment expenses | 0 | 0 |
| Health Care Receivable | 0 | (77,653) |
| Ending liability for unpaid losses and loss adjustment, net of Health Care Rec. | 0 | (77,653) |

Reserves as of December 31, 2018 were \$0. As of December 31, 2019, (\$40,860) has been reversed for incurred claims and claim adjustment expenses attributable to insured events of prior years.
