B. The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Expenses incurred in connection with acquiring new insurance business, including acquisition cost such as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized cost.
2. Bonds not backed by other loans are stated at amortized cost using the interest method.
3. The Company has no common stocks.
4. Preferred stocks are stated in accordance with the guidance provided in SSAP No. 32, *Preferred Stock*.
5. The Company has no mortgage loans.
6. Loan-backed bonds, CMOs and other structured securities are stated at amortized cost using the interest method including anticipated prepayments.
7. The Company has no investments in subsidiary, controlled, or affiliated companies.
8. The Company has no ownership interest in joint ventures, partnerships, or limited liability companies.
9. The Company has no derivative instruments.
10. The Company has no premium deficiency calculation for Individual and Group Accident and Health Contracts.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimated and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
12. The Company has not modified its capitalization policy from the prior period.
13. The Company does not have any pharmaceutical rebate receivables.

D. Going Concern

After evaluating the Company's ability to continue as a going concern, management was not aware of any conditions or events which raised substantial doubts concerning the Company's ability to continue as a going concern as of the filing of this statement.

NOTES TO FINANCIAL STATEMENTS

C. Reverse Mortgages

Not applicable to the Company.

D. Loan-backed Securities

1. The Company obtains its prepayment assumptions on loan-backed securities from market observable sources and internal prepayment models.
2. The company has no loan-backed securities with a recognized other than temporary impairment to be disclosed in aggregate as of December 31, 2020.
3. There were no loan-backed securities with a recognized other than temporary impairment as of December 31, 2020.
4. The following summarizes the aggregate unrealized losses and fair values of loan-backed securities with unrealized losses segregated by those loan-backed securities that have been at an unrealized loss position for less than twelve months and those in an unrealized loss position for greater than twelve months.

a. The aggregate amount of unrealized losses:		
	1. Less than 12 Months	\$.....0
	2. 12 Months or Longer	\$.....0
b. The aggregate related fair value of securities with unrealized losses:		
	1. Less than 12 Months	\$.....0
	2. 12 Months or Longer	\$.....0

5. Loan-backed securities primarily consist of residential mortgage-backed securities ("RMBS") and commercial mortgage-backed securities ("CMBS"). The unrealized losses on RMBS are concentrated in the non-agency sector and are primarily due to concerns regarding mortgage defaults on Alt-A and other risky mortgages. These concerns result in some illiquidity in the market and spread widening on those securities that are being traded. The unrealized losses on CMBS are primarily attributable to illiquidity in that sector and concerns regarding the potential for future commercial mortgage defaults. The Company continues to review payment performance, delinquency rates, and credit enhancements within the security structures and monitored the credit ratings of all its CMBS holdings. The Company performs various stress tests on the cash flow projections for its RMBS and CMBS securities and in situations where it is determined the projected cash flows cannot support the contractual amounts due the Company, an other-than-temporary impairment is recognized. In situations where the projected cash flows indicate the Company will receive the amounts it is contractually due and the Company has the intent and ability to hold the securities until recovery of its amortized cost, an other-than-temporary impairment is not recognized.
