#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of the financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policy

Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Expenses incurred in connection with acquiring new insurance business, including acquisition cost such as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.
- (3) The Company has no common stocks.
- (4) Preferred stocks are stated in accordance with the guidance provided in SSAP No. 32, Preferred Stock.
- (5) The Company has no mortgage loans.
- (6) Loan-backed bonds, CMO's and other structured securities are stated at amortized cost using the interest method including anticipated prepayments
- (7) The Company has no investments in subsidiary, controlled, or affiliated companies
- (8) The Company has no ownership interest in joint ventures, partnerships, or limited liability companies.
- (9) The Company has no derivative instruments.
- (10) The Company has no premium deficiency calculation for Individual and Group, Accident and Health Contracts.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimated and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company does not have any pharmaceutical rebate receivables
- D. Going Concern

After evaluating the Company's ability to continue as a going concern, management was not aware of any conditions or events which raised substantial doubts concerning the Company's ability to continue as a going concern as of the filing of this statement.

  - (1) The Company obtains its prepayment assumptions on loan-backed securities from market observable sources and internal prepayment models
  - (2) The Company has no loan-backed securities with a recognized other than temporary impairment to be disclosed in aggregate as of the statement date.
  - (3) There were no loan-backed securities with a recognized other than temporary impairment as of the statement date
  - (4) All impaired securities (fair value is less than cost or amortized cost) for which an other than temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

    a. The aggregate amount of unrealized losses:

1. Less than 12 Months 12 Months or Longer

The aggregate related fair value of securities with unrealized losses:

Less than 12 Months
 12 Months or Longer

- (5) Loan-backed securities primarily consist of residential mortgage-backed securities ("RMBS"), commercial mortgage-backed securities ("CMBS") and other asset-back securities ("ABS"). The unrealized losses on RMBS are concentrated in the non-agency sector and are primarily due to concerns regarding mortgage defaults on some specific exposures. These concerns result in some illiquidity in the market and spread widening on these securities that are being traded. The unrealized losses in CMBS are primarily attributable to illiquidity in that sector and concerns regarding the potential for future commercial mortgage defaults. The unrealized losses in ABS are primarily attributable to illiquidity in some sectors (primarily aircraft) and concerns regarding the potential for full recoverability. The Company continues to review payment performance, delinquency rates, and credit enhancements within the security structures and monitor the credit ratings of all its loan-backed securities. The Company performs various stress tests on the cash flow projections for its loan-backed securities and in situations where it is determined the projected cash flows cannot support the contractual amounts due to the Company, other-than-temporary impairment is recognized. The Company did recognize other-than-temporary impairments during 2024 in situations where: (a) the projected cash flows indicated the Company would not receive all amounts contractually due from the loan-backed securities; or (b) the Company no longer has the intent and ability to hold the securities until recovery of its amortized cost.
