- B. Fair Value Reporting under Statement of Statutory Accounting Principles No. 100, Fair Value Measurements, and Other Accounting Pronouncements: In addition to bonds and short-term investments (see below), the Plan's statutory basis balance sheets typically include the following financial instruments: investment income due and accrued, federal income tax recoverable (payable), receivables, and current liabilities. The Plan believes the carrying amounts of these financial instruments approximate the fair value of these financial instruments because of the relatively short period of time between the origination of the instruments and their expected realization or payment.

The aggregate fair value hierarchy of all financial instruments as of June 30, 2022 is presented in the table below:

The Plan continues to monitor and assess the estimated operating and financial impact of the COVID-19 pandemic, and as the pandemic evolves, the Plan continues to process, assemble, and assess utilization information. The Plan believes that its cash flow generated from operations will be sufficient to withstand the financial impact of the pandemic, and will enable it to continue to support operations, regulatory requirements, and capital expenditures for the foreseeable future.
