INTRODUCTION

Homesteaders Life Company, hereinafter referred to as the "Company", was last examined as of December 31, 2015. The examination reported herein was conducted by examiners of the Iowa Insurance Division ("Division").

SCOPE OF EXAMINATION

This is the regular comprehensive financial examination of the Company covering the intervening period from January 1, 2016 to the close of business on December 31, 2020, including any material transactions and/or events occurring and noted subsequent to the examination period.

The examination was conducted in accordance with the National Association of Insurance Commissioners ("NAIC") Financial Condition Examiners Handbook ("Handbook"). The Handbook requires that the Division plan and perform the examination to evaluate the financial condition, identify current and prospective risks of the Company and evaluate system controls and procedures used to mitigate those risks. An examination also includes identifying and evaluating significant risks that could cause an insurer's surplus to be materially misstated both currently and prospectively.

All accounts and activities of the organization were considered in accordance with the risk-focused examination process. This may include assessing significant estimates made by management and evaluating management's compliance with Statutory Accounting Principles.

The examination does not attest to the fair presentation of the financial statements included herein. If, during the course of the examination, an adjustment is identified, the impact of such adjustment will be documented separately following the Company's financial statements.

The examination report includes significant findings of fact and general information about the insurer and its financial condition.

REINSURANCE

Life Assumed

Effective October 1, 2000, the Company assumed fifty percent of the risk from the first dollar for an unaffiliated insurer's limited pay whole life policy. This agreement was terminated effective December 31, 2004, with the exception of new business written in groups that were in existence at the end of 2004. Effective December 4, 2006, the treaty was terminated for all new business, regardless of relationship to an existing group.

Life Ceded

Scottish Re was ordered into receivership on March 26, 2019 for the purpose of rehabilitation by the State of Delaware, with the Insurance Commission of the State of Delaware appointed as its statutory receiver. It is not known what impact, if any, the receivership will have on the Company's recoverability of the reserve credit of \$32.3 million and the recoverable on paid losses of \$1.1 million as of December 31, 2020. The Company has non-admitted \$7.14 million of recoverable losses relating to activity in 2019 and the first nine months of 2020.

The growth of the Company is reflected by the following significant data taken from the office copies of the filed annual statements for the years indicated (000's omitted):

ACCOUNTS AND RECORDS

The Company uses electronic data processing equipment and related software for processing and maintaining its accounts, records and files. In most areas, an imaging system is used to maintain documents on the computer system rather than maintaining the original documents (paper) or other media (microfilm, microfiche, etc.). The Information Systems controls were reviewed by this examination. No material exceptions were noted to accepted control practices and procedures.

The trial balance of the Company's general ledger for 2020 was found to be in agreement with the office copy of the filed annual statement.

The records in the Company's policy master file were sampled and tested by comparing data contained in supporting documents to data contained in the computer records. No material discrepancies were noted.

During the course of the examination, no material aggregate surplus difference was identified from the amount reflected in the financial statements, as presented in the annual statement at December 31, 2020.

SUBSEQUENT EVENTS

COVID-19 Pandemic

In March 2020, the World Health Organization declared Coronavirus disease (COVID-19) a pandemic. As of the date of this report, there is significant uncertainty as to the impact the pandemic will have on the economy, insurance industry, and the Company. In addition, this uncertainty has contributed to extreme volatility in the financial markets. The Company experienced COVID-driven pressures on mortality and sales; however, the Company finished the year with solid results in the face of the pandemic. As such, the Division will continue to monitor COVID-19 developments.

Scottish Re Receivership

The Company has a \$32.3 million reinsurance reserve credit with Scottish Re (U.S) (SRUS). SRUS was placed under rehabilitation in Delaware in March of 2019 which may impact the Company's ability to maintain the full reserve credit going forward. The Division suspended SRUS's certificate of authority in May of 2019 and, until further notice, is allowing Iowa domestic insurers to continue taking the reserve credit subject to the insurer's

performing an impairment analysis each quarter supporting such position. As of the date of this report, the Rehabilitation Plan has not been finalized and management is continually monitoring the Delaware Court's proceedings. As such, the Division will continue to monitor the SRUS developments.

Capital Funding

The Company authorized additional capital funding of \$9.3 million for subsidiaries HLC Ventures LLC, HFS II, and HFS III LLC to cover the period up to and including first quarter 2023, to be allocated between the designated subsidiaries and the subsidiaries of those subsidiaries.
