SCOPE OF EXAMINATION

This is the regular comprehensive financial examination of the Company covering the intervening period from January 1, 2013 to the close of business on December 31, 2017, including any material transactions and/or events occurring and noted subsequent to the examination period.

The examination was conducted in accordance with the NAIC Financial Condition Examiners Handbook. The Handbook requires the examination to be planned and performed to evaluate the financial condition and identify prospective risks of the Company by obtaining information about the Company; including corporate governance, identifying and assessing inherent risks within the organization, and evaluating system controls and procedures used to mitigate those risks. An examination also includes assessing the principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation, management's compliance with Statutory Accounting Principles and annual statement instructions, when applicable to domestic state regulations.

All accounts and activities of the Company were considered in accordance with the risk-focused examination process. The Company's assets were verified and evaluated, and the liabilities determined to reflect herein a statement of its financial condition as of December 31, 2017.

HISTORY

The Company was incorporated in June 1879, as an assessment life insurance company under the name of Bankers Life Association and commenced business on September 2 of that year. On October 27, 1911, the Company was transformed into a mutual legal reserve life insurance company and the name was changed to Bankers Life Company. The life of the Company was extended for a period of 50 years in 1929 and its existence was made perpetual in 1969. The name of the Company was changed from Bankers Life Company to Principal Mutual Life Insurance Company in 1986.

Effective July 1, 1998, Principal Mutual Life Insurance Company formed a mutual holding company (Principal Mutual Holding Company) and converted to a stock life insurance company (Principal Life Insurance Company). All of the shares of Principal Life Insurance Company were issued to Principal Mutual Holding Company and are owned through two newly formed intermediate holding companies, Principal Financial Group, Inc. ("PFG") and Principal Financial Services, Inc. ("PFS"). The reorganization itself did not have a material financial impact on Principal Life Insurance Company (the Company).

Effective October 26, 2001, under the terms of the Principal Mutual Holding Company's plan of conversion, Principal Life Insurance Company's ultimate parent, Principal Mutual Holding Company, converted from a mutual insurance holding company to a stock company (subsidiary of Principal Financial Group, Inc., a Delaware business corporation). All membership interests in Principal Mutual Holding Company were extinguished on that date and eligible policyholders received in aggregate, 260.8 million shares of common stock, \$1,177.5 million of cash and \$472.6 million of policy credits as compensation.

After giving effect to the reorganization resulting from the demutualization, Principal Life Insurance Company now is a direct wholly-owned subsidiary of PFS which, in turn, is a direct wholly-owned subsidiary of PFG.

In addition, on October 26, 2001, PFG completed its initial public offering ("IPO") in which it issued 100 million shares of common stock at a price of \$18.50 per share, prior to the underwriters' exercise of the overallotment option. Net proceeds from the IPO were \$1,753.9 million, of which \$64.2 million was retained by PFG, and \$1,689.7 million was contributed to the Company to reimburse for fees, cash and policy credits.

On May 1, 2017, the Company sold its ownership in Principal Global Investors, LLC ("PGI") to PFS, in connection with a corporate reorganization designed to better utilize and allocate capital internally. The Company received \$1,368.4 million in consideration for the sale, which was comprised of a \$300.0 million note receivable and a \$1,068.4 million intercompany receivable. The Company subsequently contributed the note receivable to a subsidiary, Principal Holding Company, LLC ("PHC"), and paid an extraordinary dividend of \$1,068.4 million to its parent. As the carrying value of PGI prior to the sale was \$334.3 million, the Company recognized a \$1,034.1 million pre-tax gain on sale. The Company recognized \$24.0 million in net investment income associated with dividends received from PGI prior to the sale.

CAPITAL STOCK AND DIVIDENDS TO STOCKHOLDERS

Authorized capital consists of 5.0 million shares of common stock, par value of \$1 per share. As of December 31, 2017, 2.5 million shares were issued and outstanding, resulting in common capital stock of \$2.5 million. The Company is authorized to issue 1.0 million preferred shares. As of December 31, 2017, no preferred shares have been issued. Gross paid in and contributed surplus is \$2,151.4 million.
