Actuarial Certification

Carrier: Wellmark Blue Cross and Blue Shield of Iowa.

Submission: Annual Review of Individual Business

I hereby certify that to the best of my knowledge and belief the above submission conforms to generally accepted actuarial principles, standards and guidelines, and that the premiums comply with the rate restrictions in Iowa Code §513C.5 and Iowa Administrative Code 191-75.6(1).*

Signature of qualified actuary: _____

Name (Typed or printed): Justin Knight, FSA, MAAA

Title or business affiliation: Senior Actuary

Date: November 7, 2012

*Individual health reform limits the rate increase differential between blocks of business written after April 1, 1996 to 15%, and the base rate differential between these blocks of business to no more than 2.028: 1 after actuarial adjustments are made for benefit differences and rating characteristics. A thorough review of the law and the Rating Compliance Guidelines should be made prior to signing this certification.

Actuarial Memorandum
Wellmark Blue Cross and Blue Shield of Iowa
Individual Business Sold Through
Direct or Independent Agents
Effective April 1, 2013

Purpose

The purpose of this filing is to request a rate increase; document the rates to be revised; and demonstrate that anticipated expenses for these products, using the new rates, meet the minimum loss ratio requirements. The data in this actuarial memorandum describes the methodology and assumptions used to determine this rate request, and may not be appropriate for other purposes.

Summary:

The rate revisions requested will be effective April 1, 2013 through December 31, 2013. The shorter 9 month rating period is being applied to align plan year with the rating period starting January 1, 2014. This alignment is needed to have all non-grandfathered policies comply with Patient Protection and Affordable Care Act or ACA requirements on January 1, 2014. These rate revisions will apply to all grandfathered and non-grandfathered policies in force under the following categories of Individual Business.

Category of Business	Rate Adjustment
• Pre-4/96 Products (sold before April 1996)	
Old and New Alliance Select	0.0%
• Post-4/96 Products (sold April 1996 and after)	
Pool III	12.2%
Pool IV	12.2%
Pool V	12.2%
• Group Conversion	
Age Rated CMM	0.0%
Blue Transitions	12.2%
• Blue Value	0.0%

Policy Experience and Documentation of Proposed Rate Changes

Pre 4/96 Products (sold before April 1996):

Individual CMM Pre 4/96 Alliance Select - Old and New

There are approximately 28 members remaining in our Pre 96 products. The current loss ratio for 12 months ending June 30, 2012 is 60.69%. We calculated an increase of -22.64% assuming claims trend of 5.32%. Due to the low credibility of the block, we are not requesting a rate increase.

Post 4/96 Products (sold April 1996 and after):

Methodology for Determining Requested Rate Increases (Pool III, IV, V):

Wellmark issues products in three separate blocks of business and independently calculates a needed increase for each block. The following steps were followed in determining the requested rate increases:

1. Experience for all policy holders for the 12 months ending 6/30/2012 is reviewed.
2. A completion factor is applied, which adjusts for claims that were incurred but not yet paid during the review period. This completion factor is based on our individual block's experience. Steps 1 and 2 are designed to create an appropriate 12-month estimate of claims experience on which to base future projections.
3. Determine an appropriate trend assumption to estimate medical claims payments for the future rating period. Considerations for this assumption follow:
 - Review different trend scenarios based on the each block's historical trend experience.
 - Consider the impacts of adverse selection, durational effect of underwriting, new business, and terminating business.
 - The trend assumptions for Post 4/96 business are 5.90%, 9.72%, and 10.85% for Pools III, IV, and V respectively.
4. Project medical claims (resulting from steps 1 and 2 and applying trend in step 3 from midpoint to midpoint) to simulate the medical claims expected to be paid during the rating period beginning April 1, 2013 to December 31, 2013. A loss ratio is then determined to measure the ratio of projected claims to premiums at current rates.
5. Review and determine expected non-claims expenses, premium taxes, and risk margin for the rating period; this total is subtracted from 1 to determine the target loss ratio.
6. Adjust the target loss ratio for the rating period due to the income effects of members aging and also members buying-down benefits.
7. Compare the projected loss ratio (calculated in step 4) to the adjusted target loss ratio (calculated in step 6). A needed premium increase is then calculated by dividing the projected loss ratio by the adjusted target loss ratio.
8. Multiply the needed premium increase (from step 7) to the average premium per policyholder or contract (at current rates) to determine the average income needed per contract.
9. Apply membership projections to each block of business (in this case, each risk pool) and multiply the average income needed per contract (from step 8) by the projected contract exposure to determine the income needed for each block.
10. Add the needed income for each block and determine the recommended increase for all Post 4/96 business assuming that the same increase is requested for all blocks. The purpose of this step is to provide consistency in rate requests, add credibility to the results of smaller blocks and ensure the resulting rate changes comply with the rate restrictions in Iowa Code section 513C.5 and Iowa Administrative Code 191-75.6(1).

Historical and projected medical claims trends and a summary of the calculations outlined above are provided in Appendix A of this memorandum.

Results of applying the methodology to each of the Post 4/96 blocks of business:

4/96 - 1/01 Individual Alliance Select (Pool III)

There are 797 policies in this block, down from 1,002 one year ago and 1,257 two years ago. This reduction in policy count has resulted in fluctuating experience and low credibility.

Premiums for this block are currently capped as a result of rate restrictions in Iowa Code §513C.5 and Iowa Administrative Code 191-75.6(1). Current loss ratio in the experience period is 84.82%. The resulting loss ratio after projecting claims into the new rating period without changing premiums would be 93.10%.

The calculated increase is 0.92%. We are requesting 12.20%, the same increase requested for all other Post 4/96 business. For credibility and consistent level of increases, this requested increase is the same as all other increases for all Post 4/96 business.

1/01 - 10/07 Individual Alliance Select (Pool IV)

Policy counts have decreased in this block. There are 8,779 policies, down from 10,635 one year ago and 13,271 two years ago.

Current loss ratio in the experience period is 85.78%. The resulting loss ratio after projecting claims into the new rating period without changing premiums would be 99.73%.

The calculated increase for this block is 9.64%. We are requesting 12.20%, the same increase requested for all other Post 4/96 business. For credibility and consistent level of increases, this requested increase is the same as all other increases for all Post 4/96 business.

10/07 Individual Alliance Select (Pool V)

This block of business is the only block issuing new policies. Policy counts have increased to 37,618, up from 35,102 one year ago and 31,035 two years ago. Current loss ratio in the experience period is 83.67%. The premiums from these policies are currently near the lower boundary limit compliant with the rate restrictions in Iowa Code §513C.5 and Iowa Administrative Code 191-75.6(1).

Increases in claims payments have averaged more than 10% over the past few years. Our calculated increase is 13.43%. We are requesting 12.20%. In past years this block was used to subsidize the amounts needed by other Post 4/96 business (Pools III and IV). The requested increase is slightly lower than calculated, which expects some subsidization from the other Post 4/96 business. For credibility and consistent level of increases, this requested increase is the same as all other increases for all Post 4/96 business.

Group Conversion Products:

Age Rated CMM

There are 8 policies currently enrolled in this group conversion product. There is very low credibility in this block of business. Our calculated increase is greater than 100%. Due to the low credibility of the block and the low enrollment, we are not requesting a rate increase for this block of business.

Blue Transitions

Wellmark issued these group conversion products in a separate block of business and independently calculates a needed increase. This product is currently available for renewal only. There are 1,348 policies in this block. The method used to determine a recommended increase is the same as that used for the Post 4/96 Business with the exception of adjusting for benefit buy-downs and aging (details are provided in Appendix B). The experience period loss ratio is 116.28%. Our calculated increase is 71.90%. After including a corporate subsidy however, we are requesting 12.20%.

Alliance Select Blue Value:

There are 6 policies currently enrolled in this product. Due to the low credibility of the block and the low enrollment, we are not requesting a rate increase for this block of business.

Appendix A

Medical Trends

Pre 4/96, Group Conversion – Age Rated, and Blue Value Products, which all have no requested base rate increase, have a medical trend assumption of 5.32%. This assumption of projected medical claims was derived by using a blend of 4 months of our group business' observed trend (4.05%) and 19.5 months of our group business' forecasted trend (5.65%). Due to the low credibility, low enrollment, and 0% base rate change requested, group trend seemed reasonable for this assumption.

Post 4/96 Products have medical trend assumptions of 5.90%, 9.72%, and 10.85% for Pools III, IV, and V respectively. These assumptions of projected medical claims were derived from a review of past experience for Post 4/96 blocks of business. Multiple trend scenarios were considered and are included in the table below:

<u>Scenario</u>	<u>Pool III</u>	<u>Pool IV</u>	<u>Pool V</u>	<u>Average Calculated Rate Increase</u>
12 Month Trend, Incurred Period Ending 4/30/2012 – Run-out through 6/30/2012	6.20%	8.88%	11.00%	12.60%
12 Month Trend, Incurred Period Ending 6/30/2012 – Run-out through 8/30/2012	-3.01%	8.96%	10.45%	11.50%
2 Year Average, Incurred Period Ending 6/30/2012 – Run-out through 8/30/2012	5.90%	10.02%	10.78%	12.70%
Mixture of 2 Year Average and Averaging the Latest 6 Months of 12 Month Trends	5.90%	9.72%	10.85%	12.20%

The last scenario above was used for the medical trend assumptions in the requested rate increase. This scenario was chosen to capture the most recent trend changes experienced.

Blue Transitions Products have a medical trend assumption of 18.82%. This assumption of projected medical claims was derived by using their most recent 12 month trend experience at the time the requested base rate increase was calculated. This trend was incurred for the 12 month period ending 6/30/2012 with no run-out.

Appendix A

Details of Rate Calculation (Post 4/96 Business)

The table below provides the derivations resulting from key steps outlined in the methodology for determining requested rate increases for the Post 4/96 business. The corresponding steps are noted in **bold font**.

	Pool III	Pool IV	Pool V	Total
1. Current loss ratio for 12 months ending 6/30/2012 (Result from completing claims in Step 2 of the methodology and considering premium earned for that period)	84.82%	85.78%	83.67%	84.34%
2. Projected Loss ratio for 9 months ending 12/31/2013 (Result from Step 4 of the methodology)	86.98%	93.19%	92.98%	92.73%
3. Target Loss Ratio for rating period ending 12/31/2013	85.71%	84.44%	81.21%	82.34% ¹
4. Adjustment to premium for individuals buying down benefits (Part of Step 6 of the methodology)	1.58%	1.58%	1.58%	1.58%
5. Credit to premium for individuals already receiving Premium increase due to aging (Part of Step 6 of the methodology)	(2.06%)	(2.14%)	(2.35%)	(2.28%)
6. Adjusted Target Loss Ratio (Subtract lines 4 and 5 from line 3) - (Result from Step 6 of Methodology)	86.19%	85.00%	81.97%	83.03%
7. Calculated Rate Increase Needed (Line 2 divided by Line 6) – (Result from Step 7 of the methodology)	0.92%	9.64%	13.43%	11.67%
8. Adjust Total Calculated Rate Increase for membership assumptions among each of the Post 96 blocks (Result from Step 8 of Methodology)	0.92%	9.64%	13.43%	12.20% ²
9. Adjustment/(Credit) to premium to ensure a consistent level of premium increase among each of the Post 96 blocks (Result from Step 9 of Methodology)	11.18%	2.33%	(1.08%)	0.00%
10. Requested rate increase: [(1+Line 8) times (1+Line 9)] -1 (Result from Step 10 of the methodology)	12.20%	12.20%	12.20%	12.20% ³

- 1) This loss ratio is intended for filing purposes only and not suitable for other comparisons. For instance, the minimum medical loss ratio (MLR) requirement of 80% in the individual market is defined with different criteria and therefore not comparable to the Target Loss Ratios in this filing.
- 2) This calculated base rate increase was rounded to the nearest tenth of a percent.
- 3) For credibility and consistent level of increases, this requested increase is the same as all other increases for all Post 4/96 business.

Appendix B

Details of Rate Calculation (Blue Transitions)

The table below outlines the derivations resulting from the key steps outlined in the methodology for determining requested rate increases for the Blue Transitions business. The method used to determine the recommended rate increase is the same used for the Post 4/96 business with the exception of steps 6, 8 and 10. The corresponding steps from the method describing the Post 4/96 business are noted in **bold** font.

	Blue Transitions
1. Current loss ratio for 12 months ending 6/30/2012 (Result from completing claims in Step 2 of the methodology and considering premium earned for that period)	116.28%
2. Projected Loss ratio for 9 months ending 12/31/2013 (Result from Step 4 of the methodology)	154.75%
3. Target Loss Ratio for rating period ending 12/31/2013	90.02%
4. Calculated Rate Increase Needed (Line 2 divided by Line 3) – (Result from Step 7 of the methodology)	71.90%
5. (Credit) to premium for the application of a corporate subsidy	(34.73%)
6. Requested rate increase- [(1+Line 4) times (1+Line 5)] -1 (Result from Step 9 of the methodology)	12.20%

Appendix C

Appendix C is included with this filing as additional background for informational purposes. Wellmark is not requesting review and approval of this information. It is provided only as further explanation of factors, other than base rates, that may affect members' premiums.

Individual Changes in Premium

Wellmark has filed a request for approval of an increase to the base rates used to determine premiums, as required under Iowa law. However, other factors not subject to review and approval may affect an individual's premium. These factors include changes in coverage, including but not limited to changes in benefits, payment obligations (such as deductible, coinsurance and copayments), the number of covered family members, members' ages, changes in tobacco user status, or other factors that require adjustments to the total premium.

Demographics:

Individual health premiums are attained age rated, meaning rates are adjusted periodically as a person gets older. The amount of change can vary, depending on the current age of the individual and the period of time since the last demographic adjustment occurred. For instance, the change can be low (less than 2%) in situations where the adjustment occurs annually. Other policies, however, have rates that may make this adjustment only once every five years. In these situations, the amount of change between consecutive age bands can be significantly more (as much as 37%) than if the adjustment were made annually.

Changes in Coverage:

Changes to the benefits that a policy is required to provide may impact the value of the plan offered. For example, if a policy increases the amount of benefits expected to be paid, the premium would subsequently increase to reflect the additional value. Benefits change for a variety of reasons, including changes in state and federal laws and regulations, as well as individual requests to change the plan design or payment obligations. For example, effective August 1, 2012 various changes in coverage and benefits were made to policies in order to comply with increasing the preventive services that health plans are required to cover under the Patient Protection and Affordable Care Act. These additional preventive services are intended to close a gap for women. Plans that are non-grandfathered (as defined by ACA) reflect additional required women's preventive services with no member cost sharing. A quarter of the assumed increase in these benefit costs were included in the non-grandfathered plans' premiums effective 4/1/2012. The remaining three-quarters of the assumed increase in these benefit costs will be included in the non-grandfathered plans' premiums effective 4/1/2013 along with the final approved base rate increase.

Preliminary Justification Part II – Description of Requested Rate Increase
Wellmark Blue Cross and Blue Shield of Iowa
Individual Health (Post-4/96 Products) – Pool III
Effective April 1, 2013

- **Scope and Range of the Rate Increase**

There are 797 policy holders representing 1,507 members in this block as of September 30, 2012. The requested rate increase of 12.20% will be effective April 1, 2013.

- **Financial Experience of the Product**

For the 12-month experience period ending June 30, 2012, incurred claims were \$9,162,381 and premiums were \$10,801,542 for the period of July 1, 2011 through June 30, 2012. The loss ratio for this experience period is 84.82%, while the target loss ratio is 85.71%. Our calculated increase is 0.92%. We are requesting 12.20%. For credibility and consistency, this requested increase is the same as all increases for all other Post 4/96 business.

- **Changes in Medical Service Costs**

An annual trend of 5.90% was used to project paid claims from the experience period to the rating period. This trend assumption includes any change in service costs and utilization. The value for this trend assumption was derived by analyzing historical trend and adjusting for projected changes in service costs and utilization.

- **Changes in Benefits**

Effective August 1, 2012 various changes in coverage and benefits were made to non-grandfathered policies in order to comply with PPACA's requirements of covering additional women's preventive services with no member cost sharing. A portion of the assumed increase in these benefit costs was included in the non-grandfathered plans' premiums effective 4/1/2012. The remaining portion (0.75%) of the assumed increase in these benefit costs will be included in the non-grandfathered plans' premiums effective 4/1/2013, along with the final approved base rate increase.

- **Administrative Costs and Anticipated Profits**

Administrative costs for all Post 4/96 business have decreased as a percent of premium from the prior rating period. Changes in distribution costs are the main driver of this change in administrative cost.

While anticipated profits vary among each pool of Post 4/96 business, in aggregate the anticipated profits for all Post 4/96 business are the same as a percent of premium from the prior rating period (3.50%). This nominal margin is needed to help ensure Wellmark's long-term viability.

Preliminary Justification Part II – Description of Requested Rate Increase
Wellmark Blue Cross and Blue Shield of Iowa
Individual Health (Post-4/96 Products) – Pool IV
Effective April 1, 2013

- **Scope and Range of the Rate Increase**

There are 8,779 policy holders representing 17,275 members in this block as of September 30, 2012. The requested rate increase of 12.20% will be effective April 1, 2013.

- **Financial Experience of the Product**

For the 12-month experience period ending June 30, 2012, incurred claims were \$54,818,215 and premiums were \$63,908,989 for the period of July 1, 2011 through June 30, 2012. The loss ratio for this experience period is 85.78% which exceeds our target loss ratio of 84.44%. Our calculated increase is 9.64%. We are requesting 12.20%. For credibility and consistency, this requested increase is the same as all increases for all other Post 4/96 business.

- **Changes in Medical Service Costs**

An annual trend of 9.72% was used to project paid claims from the experience period to the rating period. This trend assumption includes any change in service costs and utilization. The value for this trend assumption was derived by analyzing historical trend and adjusting for projected changes in service costs and utilization.

- **Changes in Benefits**

Effective August 1, 2012 various changes in coverage and benefits were made to non-grandfathered policies in order to comply with PPACA's requirements of covering additional women's preventive services with no member cost sharing. A portion of the assumed increase in these benefit costs was included in the non-grandfathered plans' premiums effective 4/1/2012. The remaining portion (0.75%) of the assumed increase in these benefit costs will be included in the non-grandfathered plans' premiums effective 4/1/2013, along with the final approved base rate increase.

- **Administrative Costs and Anticipated Profits**

Administrative costs for all Post 4/96 business have decreased as a percent of premium from the prior rating period. Changes in distribution costs are the main driver of this change in administrative cost.

While anticipated profits vary among each pool of Post 4/96 business, in aggregate the anticipated profits for all Post 4/96 business are the same as a percent of premium from the prior rating period (3.50%). This nominal margin is needed to help ensure Wellmark's long-term viability.

Preliminary Justification Part II – Description of Requested Rate Increase
Wellmark Blue Cross and Blue Shield of Iowa
Individual Health (Post-4/96 Products) – Pool V
Effective April 1, 2013

- **Scope and Range of the Rate Increase**

There are 37,618 policy holders representing 62,920 members in this block as of September 30, 2012. The requested rate increase of 12.20% will be effective April 1, 2013.

- **Financial Experience of the Product**

For the 12-month experience period ending June 30, 2012, incurred claims were \$120,732,452 and premiums were \$144,299,675 for the period of July 1, 2011 through June 30, 2012. The loss ratio for this experience period is 83.67% which exceeds our target loss ratio of 81.21%. Our calculated increase is 13.43%. We are requesting 12.20%. For credibility and consistency, this requested increase is the same as all increases for all other Post 4/96 business.

- **Changes in Medical Service Costs**

An annual trend of 10.85% was used to project paid claims from the experience period to the rating period. This trend assumption includes any change in service costs and utilization. The value for this trend assumption was derived by analyzing historical trend and adjusting for projected changes in service costs and utilization.

- **Changes in Benefits**

Effective August 1, 2012 various changes in coverage and benefits were made to non-grandfathered policies in order to comply with PPACA's requirements of covering additional women's preventive services with no member cost sharing. A portion of the assumed increase in these benefit costs was included in the non-grandfathered plans' premiums effective 4/1/2012. The remaining portion (0.75%) of the assumed increase in these benefit costs will be included in the non-grandfathered plans' premiums effective 4/1/2013, along with the final approved base rate increase.

- **Administrative Costs and Anticipated Profits**

Administrative costs for all Post 4/96 business have decreased as a percent of premium from the prior rating period. Changes in distribution costs are the main driver of this change in administrative cost.

While anticipated profits vary among each pool of Post 4/96 business, in aggregate the anticipated profits for all Post 4/96 business are the same as a percent of premium from the prior rating period (3.50%). This nominal margin is needed to help ensure Wellmark's long-term viability.

Preliminary Justification Part II – Description of Requested Rate Increase
Wellmark Blue Cross and Blue Shield of Iowa
Individual Health (Pre 96 Products)
Effective April 1, 2013

- **Scope and Range of the Rate Increase**

There are 22 policy holders representing 27 members in this block as of September 30, 2012. We are requesting no rate change for the rating period April 1, 2103 through December 31, 2013.

- **Changes in Benefits**

All plans in this block of business are grandfathered plans. There are no changes in benefits for these plans.

- **Administrative Costs and Anticipated Profits**

Administrative costs for this block of business have decreased as a percent of premium from the prior rating period.

Calculated anticipated profits for this block of business are high as percent of premium. However, they are not credible due to the lack of enrollment in this block of business. We are targeting for a 3.5% margin in this block of business.

Preliminary Justification Part II – Description of Requested Rate Increase
Wellmark Blue Cross and Blue Shield of Iowa
Individual Health – Group Conversion
Effective April 1, 2013

- **Scope and Range of the Rate Increase**

There are 8 policy holders representing 9 members in this block as of September 30, 2012. We are requesting no rate change for the rating period April 1, 2103 through December 31, 2013.

- **Changes in Benefits**

Effective August 1, 2012 various changes in coverage and benefits were made to non-grandfathered policies in order to comply with PPACA's requirements of covering additional women's preventive services with no member cost sharing. A portion of the assumed increase in these benefit costs was included in the non-grandfathered plans' premiums effective 4/1/2012. The remaining portion (0.75%) of the assumed increase in these benefit costs will be included in the non-grandfathered plans' premiums effective 4/1/2013.

- **Administrative Costs and Anticipated Profits**

Administrative costs for this block of business have decreased as a percent of premium from the prior rating period.

Calculated anticipated profits for this block of business are negative. However, they are not credible due to the lack of enrollment in this block of business. We are targeting for a 3.5% margin in this block of business.

Preliminary Justification Part II – Description of Requested Rate Increase
Wellmark Blue Cross and Blue Shield of Iowa
Individual Health – Blue Transitions
Effective April 1, 2013

- **Scope and Range of the Rate Increase**

There are 1,348 policy holders representing 1,718 members in this block as of September 30, 2012. The requested rate increase of 12.20% will be effective April 1, 2013.

- **Financial Experience of the Product**

For the 12-month experience period ending June 30, 2012, incurred claims were \$16,370,985 and premiums were \$14,078,341 for the period of July 1, 2011 through June 30, 2012. The loss ratio for this experience period is 116.28% which exceeds our target loss ratio of 90.02%. Our calculated increase is 71.90%. We are requesting 12.20%.

- **Changes in Medical Service Costs**

An annual trend of 18.82% was used to project paid claims from the experience period to the rating period. This trend assumption includes any change in service costs and utilization. The value for this trend assumption was derived by analyzing historical trend and adjusting for projected changes in service costs and utilization.

- **Changes in Benefits**

Effective August 1, 2012 various changes in coverage and benefits were made to non-grandfathered policies in order to comply with PPACA's requirements of covering additional women's preventive services with no member cost sharing. A portion of the assumed increase in these benefit costs was included in the non-grandfathered plans' premiums effective 4/1/2012. The remaining portion (0.75%) of the assumed increase in these benefit costs will be included in the non-grandfathered plans' premiums effective 4/1/2013, along with the final approved base rate increase.

- **Administrative Costs and Anticipated Profits**

Administrative costs for this block of business are increasing as a percent of premium from the prior rating period. However, changes in administrative costs are not what are driving the requested rate increase.

While anticipated profits are a significantly negative percent of premium, this block of business is being subsidized by our group business.

Preliminary Justification Part II – Description of Requested Rate Increase
Wellmark Blue Cross and Blue Shield of Iowa
Individual Health – Blue Value
Effective April 1, 2013

- **Scope and Range of the Rate Increase**

There are 6 policy holders representing 6 members in this block as of September 30, 2012. We are requesting no rate change for the rating period April 1, 2103 through December 31, 2013.

- **Changes in Benefits**

All plans in this block of business are grandfathered plans. There are no changes in benefits for these plans.

- **Administrative Costs and Anticipated Profits**

Administrative costs for this block of business have decreased as a percent of premium from the prior rating period.

Calculated anticipated profits for this block of business are high as percent of premium. However, they are not credible due to the lack of enrollment in this block of business. We are targeting for a 3.5% margin in this block of business.
