ACCOUNTS AND RECORDS

The Company's general ledgers are maintained on an accrual basis. Trial balances were prepared for the examination years under review. Amounts from the general ledger accounts were reconciled and found to be in agreement with balances reported on the annual statements for assets, liabilities, income or disbursements.

During the course of the examination, no material aggregate surplus difference was identified from the amount reflected in the financial statements, as presented in the annual statement at December 31, 2015.

Allocation of Business Owners Policy Premium - The Company has a policy for the manual allocation of the system generated premium for the business owners' policies.
